

BRAND GUIDELINES · 2026

Better with every layer.

The identity of TekRevol, an AI-first software development company.

CONTENTS

Inside this guide

01

The TekRevolution

Story, positioning, idea, personality

02

Logo and color

Logo, palette, accessibility

03

Typography

Typefaces, scale, hierarchy

04

Graphic language

Patterns, diagrams, layers, icons

05

Imagery and voice

Image direction, prompts, tone

06

In use and tested

Applications, checks, files

THE TEKREVOLUTION

It all started with a vision.

“TekRevol was created to give our people a platform where they are free to think critically and innovate, to create a better world.”

THEN

A mobile app studio built on structured chaos: learn, ideate, iterate, incubate and scale, in a constant state of flux.

NOW

The same spirit, applied to AI. TekRevol adopts new technology early, experiments fast and keeps rebuilding until it works, then ships software enterprises can rely on.

Young in approach. Enterprise in output.

WHAT TEKREVOL IS

TekRevol builds the AI-native software other vendors, and other AI tools, couldn't finish.

Category

AI-first software development company.
Software development stays the parent category; AI leads.

What we do

AI-native products from scratch, and AI-built prototypes taken the rest of the way to production.

What backs it

Ten years of mobile, web, cloud and custom software engineering, and 800+ products delivered.

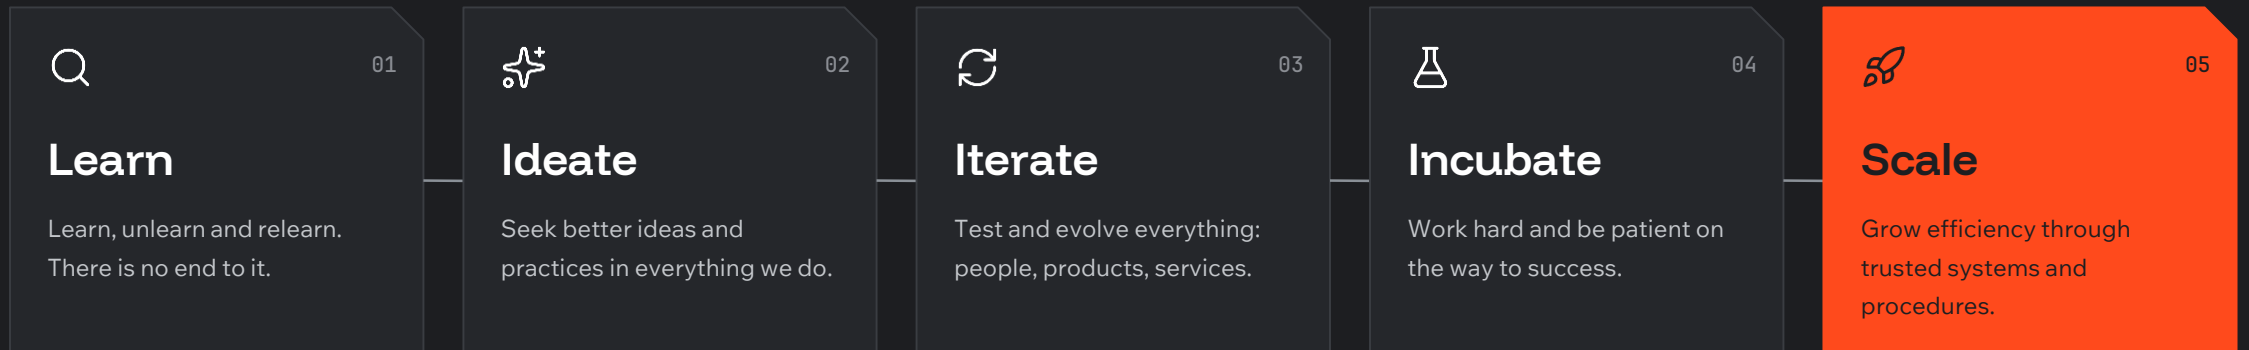

THE BRAND IDEA

Structured chaos.

TekRevol tries more paths than most teams would dare, faster than most teams can. Most attempts teach something; one ships. That is how a young, curious team produces enterprise-grade work.

HOW WE WORK

Learn. Ideate. Iterate. Incubate. Scale.

The TekRevol cycle, from the original handbook. Still how the team works, now with AI in every step.

PERSONALITY

Traits that shape the work.

Six traits, drawn from the original TekRevol values and still true today.

01

Built

Engineered, precise, specific.

02

Quick

Moves early, ships on schedule.

03

Evolving

Every version better than the last.

04

Candid

Says what is true, plainly.

05

Warm

Human-centered and real.

06

Curious

Questions everything, learns fast.

02

Logo and color

The fixed parts of every TekRevol layout.

PRIMARY LOGO

One mark. Same geometry, brighter color.

Charcoal ink on white and light backgrounds

Left plane #FF4A1C Right plane #FF7A45 Base bar #D93A12

White ink on charcoal and dark backgrounds

Wordmark #1D1E21

RULES

Space, size and misuse.

Clear space on every side = X, the height of the letter T.

Minimum size

Full logo 120 px on screen, 30 mm in print. Mark alone 20 px, 6 mm.

DON'T

Stretch or distort

Recolor

Use full color on orange

Add shadows or effects

CORE PALETTE

Clean neutrals, one bright accent.

TekRevol Orange

#FF4A1C RGB 255 74 28

Charcoal

#1D1E21 RGB 29 30 33

White

#FFFFFF RGB 255 255 255

The only accent: CTAs, the highlight, what ships

Headlines, body text, dark sections

Primary background

Mist

#EEEEFE

Silver

#C9CCCF

Steel

#8A9097

Muted

#5E6166

Flare

#FF7A45

Ember

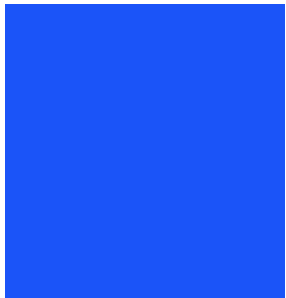

#D93A12

Orange Ink

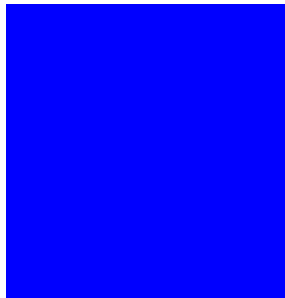

#C2340E

WHY ORANGE

The category is a blue wall. Orange is the signal.

LeewayHertz

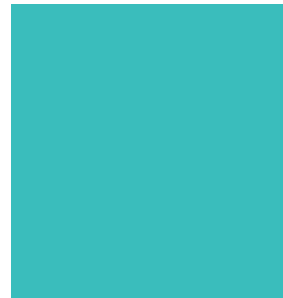

Azumo

ScienceSoft

Cheesecake Labs

HatchWorks

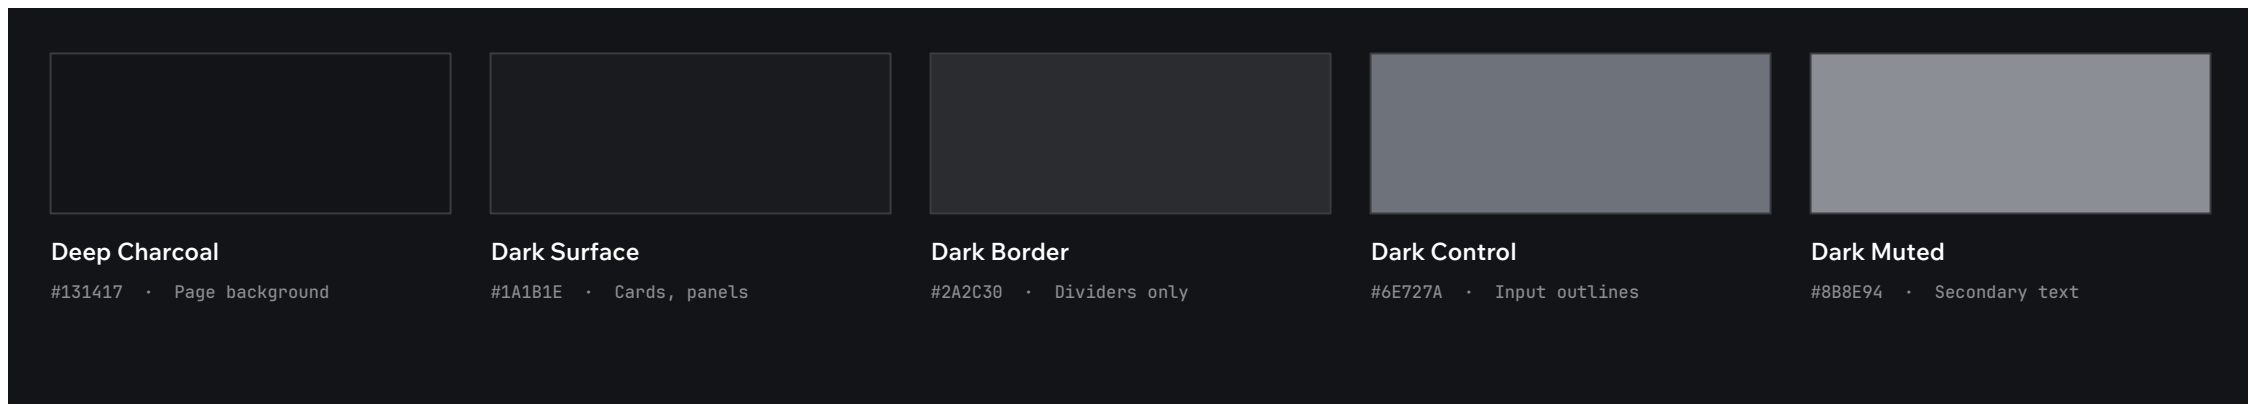

One warm accent against a wall of cool blues: the most recognizable position in the category.

PROPORTION AND DARK MODE

How much of each.

One orange focal point per view; the primary button is functional and doesn't count.

ACCESSIBILITY, TESTED

Every text pair checked against WCAG 2.2.

Aa	Charcoal on White #1D1E21 on #FFFFFF	16.7:1	AAA
Aa	Charcoal on Orange #1D1E21 on #FF4A1C	5.0:1	AA
Aa	White on Deep Charcoal #FFFFFF on #131417	18.4:1	AAA
Aa	Dark Muted on Deep Charcoal #8B8E94 on #131417	5.6:1	AA
Aa	Muted on White #5E6166 on #FFFFFF	6.2:1	AA
Aa	Orange Ink on White #C2340E on #FFFFFF	5.9:1	AA
Aa	Flare on Deep Charcoal #FF7A45 on #131417	7.0:1	AAA
Aa	Orange on White #FF4A1C on #FFFFFF	3.4:1	LARGE

Orange as text on white is for headlines 24 px and up; use Orange Ink for smaller text.

03

Typography

Headlines with personality. Everything else calm.

Aa

TYPEFACES

Funnel Display

Headlines. SemiBold and Bold.

ABCDEFGHIJKLMNOPQRSTUVWXYZ

abcdefghijklmnopqrstuvwxyz

0123456789 & ? ! @ %

Wix Madefor Text

Body copy, subheads and UI. Regular, Medium, SemiBold.

Same team from kickoff to launch. Compliance built in from the first sprint.

JetBrains Mono

Labels, node labels, code and proof numbers. Uppercase, +8% tracking.

AI-FIRST SOFTWARE DEVELOPMENT

800+

All three are free under the SIL Open Font License. Install them from the fonts folder before editing this file.

SCALE AND HIERARCHY

One clear order on every page.

STYLE	TYPEFACE	DESKTOP	MOBILE
Display	Funnel Bold	88 px	44 px
H1	Funnel Bold	56 px	34 px
H2	Funnel SemiBold	40 px	28 px
Pull quote	Funnel SemiBold	32 px	24 px
H3	Funnel SemiBold	28 px	22 px
Lead	Wix Regular	20 px	18 px
Body	Wix Regular	16 px	16 px
Button	Wix SemiBold	15 px	15 px
Label	JetBrains Mono, caps	12 px	12 px
Data large	JetBrains Mono	48 px	32 px

AI-FIRST SOFTWARE DEVELOPMENT

Finish what the last team started.

Stalled build or an AI prototype that hit a wall. One team takes it to launch.

See our work

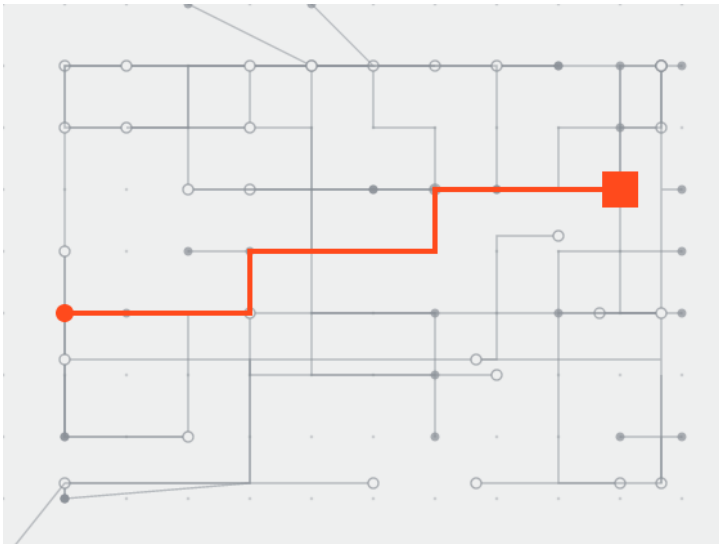

04

Graphic language

Structured chaos, drawn: many attempts, one path that ships.

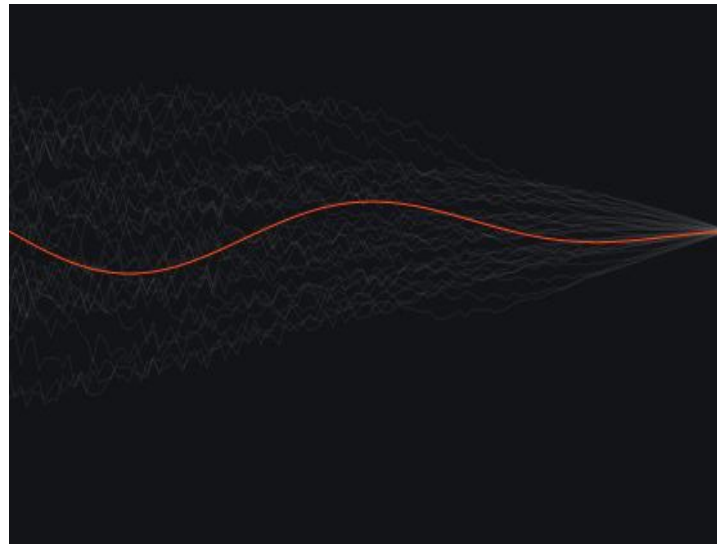

THREE PATTERNS, ONE IDEA

Never the same background twice.

Experiment field

Many tries, one path through. For covers of strategy, process and case-study pages.

Iteration lines

Rough attempts that settle into one clean line. For covers and campaign visuals.

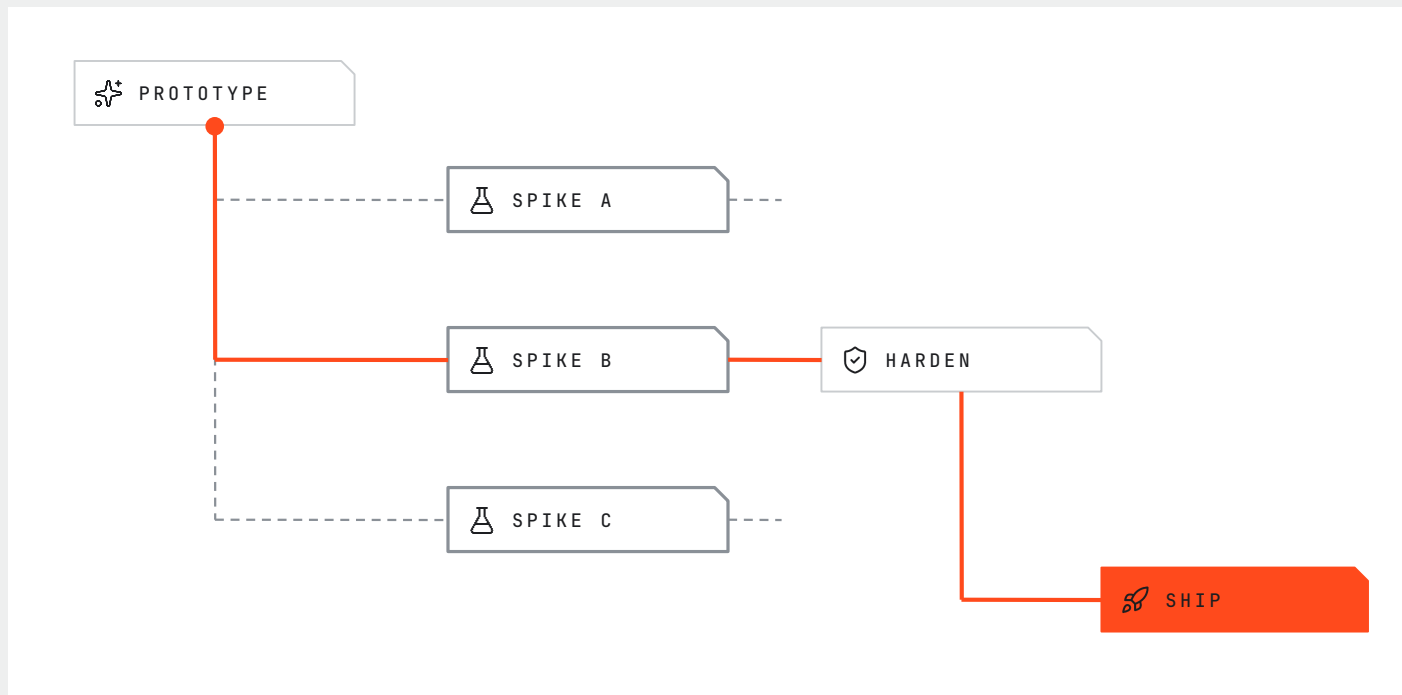

Layer planes

Stacked layers, the newest lit orange. For architecture and section openers.

DIAGRAMS

Grey explores. Orange ships.

Explore

Steel dashed lines and outlined nodes for experiments, options and spikes

Ship

One orange solid path, 3 px, from start to the filled orange result

Shape

Right angles only; notched nodes with a line icon and a mono label

Keep it short

4 to 7 nodes; label with verbs or real components

SIGNATURE GRAPHIC

The layer stack.

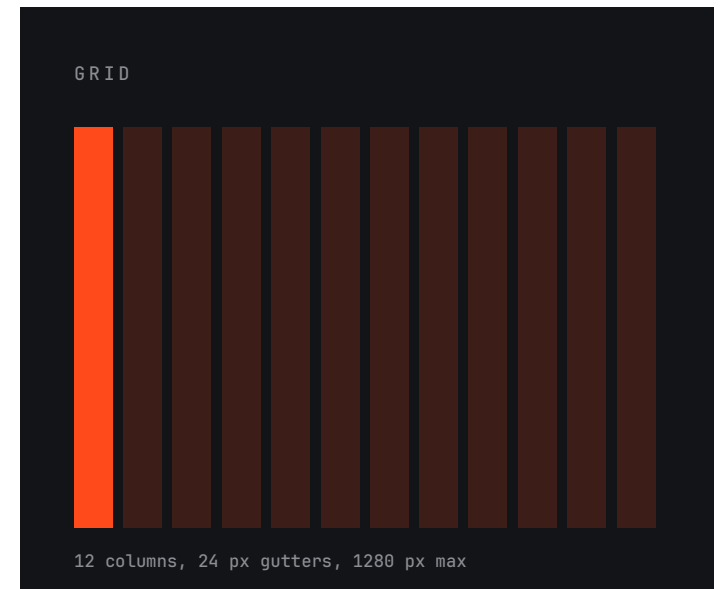

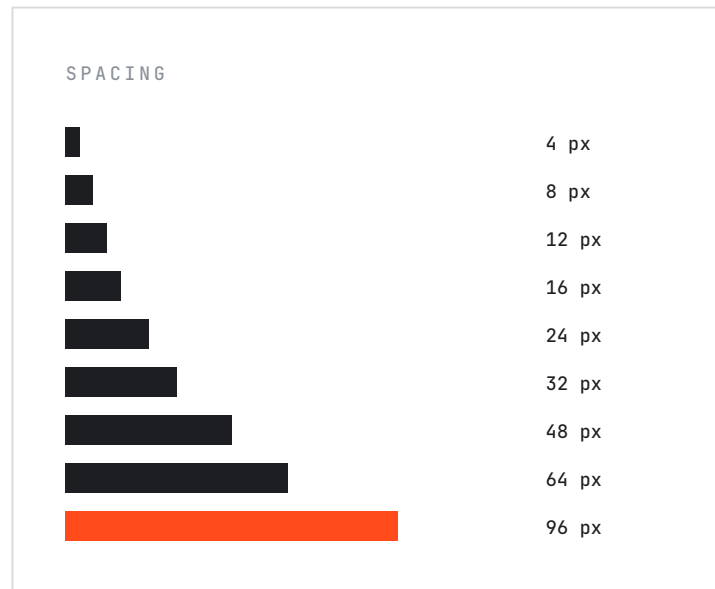

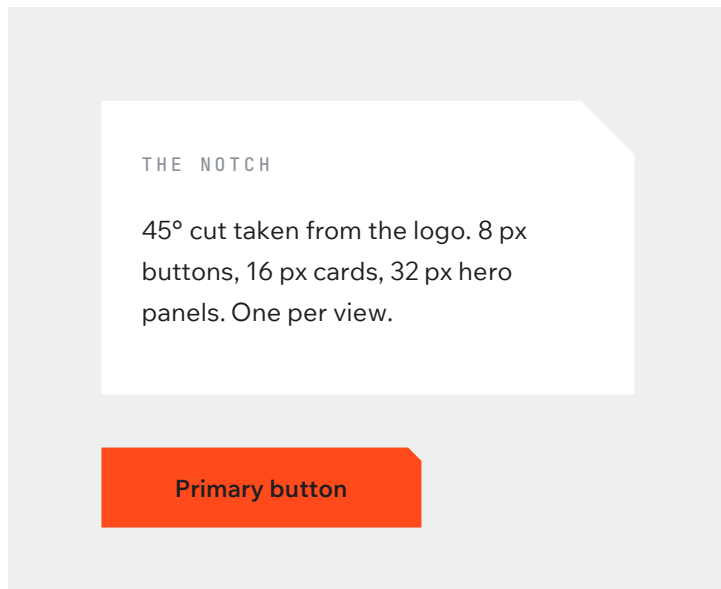

The real layers of AI-native software, stacked bottom to top. It is “better with every layer” made literal.

04	Product	Web, mobile, API
03	Agents	Planning, tools, memory
02	Models	LLMs, embeddings, evals
01	Data	Warehouse, APIs, events

SHAPE AND SPACE

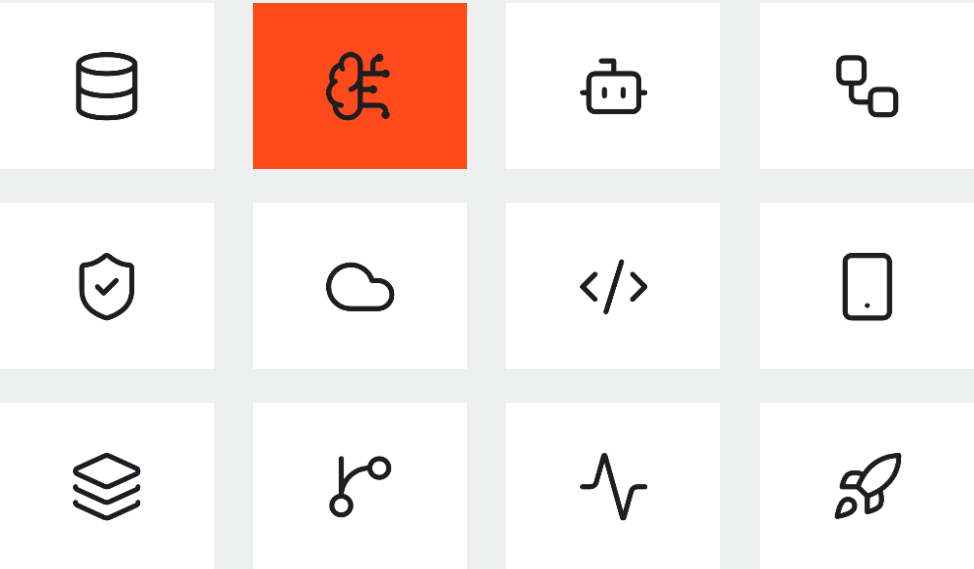

Square, with one signature corner.

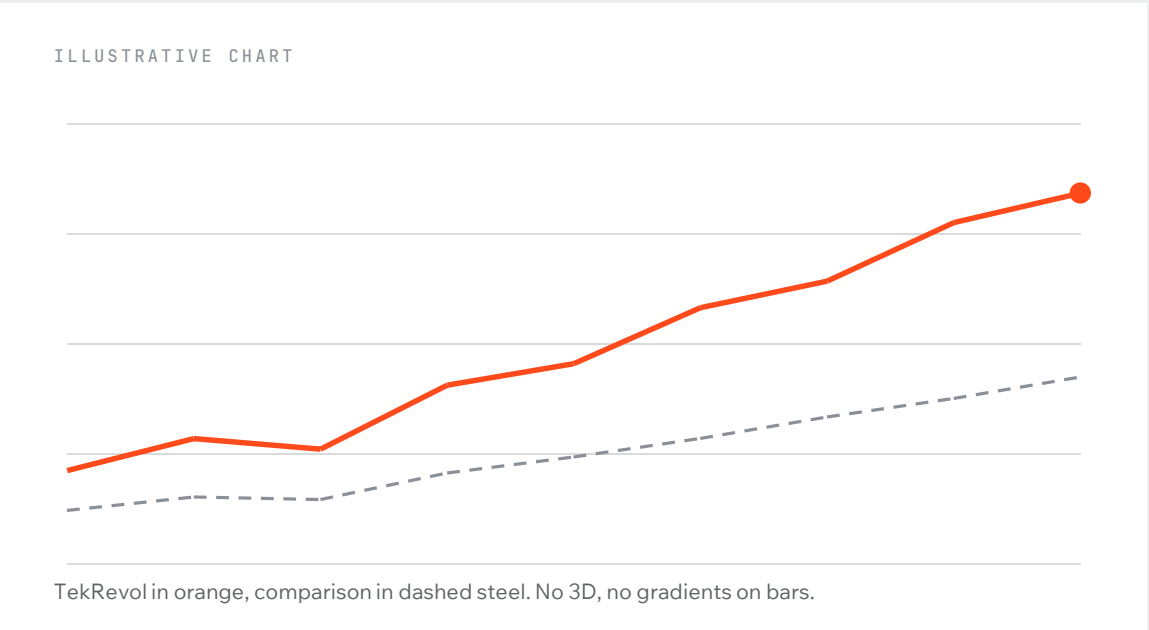

Sections, images and large cards stay square. Pills only for status dots and avatars.

ICONS AND DATA

Thin lines, honest charts.

Lucide, 1.5 px stroke, charcoal. One active icon may sit on orange.

AI-generated mood image. Use real TekRevol team photos in public material.

IMAGE DIRECTION

Show the build, then the builders.

Patterns first

Experiment fields, iteration lines and layer planes lead covers, slides and social posts.

Real people, real work

Documentary photos of the team at work. Bright spaces, natural light, one orange detail per frame.

Product on screen

Real TekRevol interfaces on devices. Screens are always real UI, never generated.

PROMPTS FOR EVERY IMAGE TYPE

See 2026-10-05-image-prompts-for-designer.md in the brand folder: cover lines, layers, structured chaos, orbs and team.

Approved images and where they go.

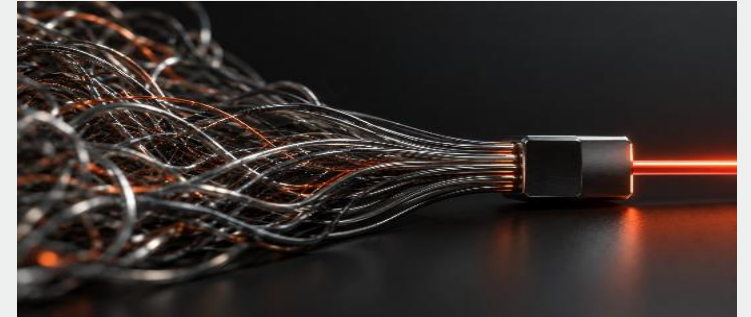

Iteration becomes one line

Covers, campaign heroes, video end cards · 1-cover.png

Better with every layer

Section openers, architecture and service pages · 2-layers.png

Structured chaos

Brand story, process and case-study openers · 3-Chaos.png

Soft-focus orbs

Dark title slides, closing slides, quotes · 4-orbs.png

Builders (mood only)

About and careers, until real photos exist · 5-team.png

VOICE

TO

NE OF VOICE

Young in approach. Enterprise in output.

Clear

Short, active sentences. One idea each.

Specific

Real numbers, named standards, real work.

Candid

Name the situation, never the vendor.

No em dashes. No invented statistics. US spelling. Sentence case.

SAY THIS

Finish what the last team started.

Built for HIPAA from the first sprint.

Your AI prototype got you 80% of the way.

NOT THIS

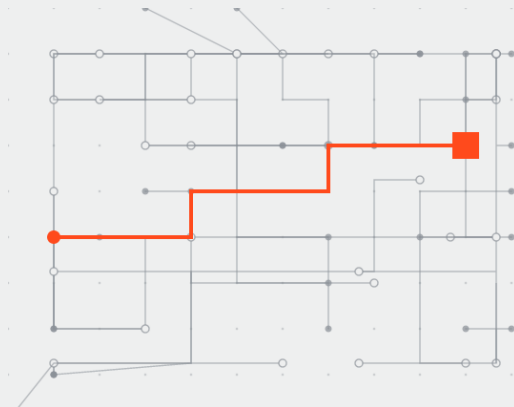

Revolutionary AI-powered solutions.

Cutting-edge, robust, seamless security.

Unleash the power of AI today.

APPLICATIONS

The system at work.

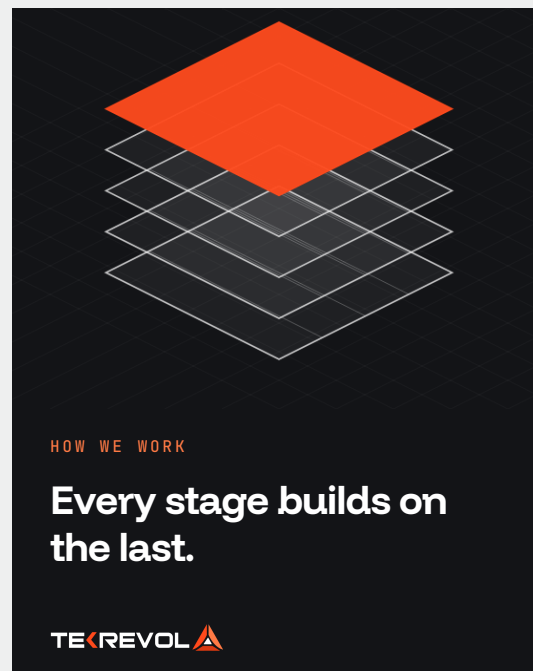

AI-NATIVE SOFTWARE

**Your AI prototype got
you 80% of the way.**

LinkedIn post, 4:5

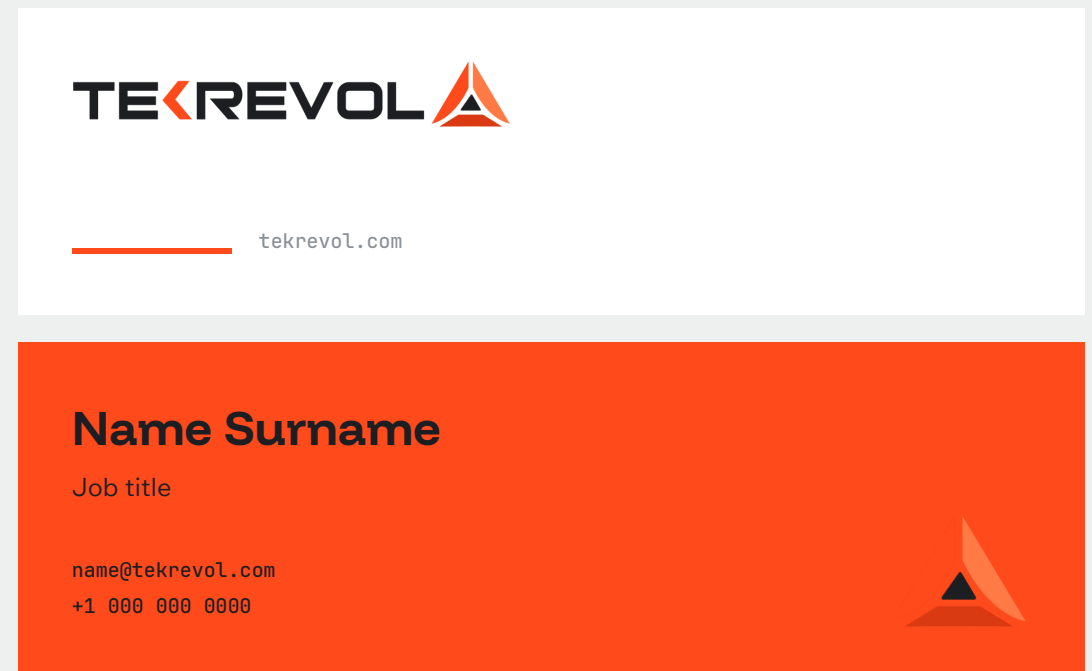

HOW WE WORK

**Every stage builds on
the last.**

Carousel cover, dark

+1 000 000 0000

Business card, front and back

HOW THIS SYSTEM WAS TESTED

Checked before it ships.

✓	Contrast	Every text pair measured against WCAG 2.2; body text passes AA, most pairs AAA
✓	Legibility	Type scale checked from 12 px labels to 88 px display, desktop and mobile
✓	Dark mode	Every color has a dark equivalent; control outlines meet 3:1
✓	Color blindness	Orange, and charcoal differ in lightness, so meaning never relies on hue alone
✓	Fonts	Free under the SIL Open Font License; files included
✓	Editable	Every text box and diagram in this file is native and editable in PowerPoint
✓	Applied	Tested on social, presentation, business card and web layouts

Learn. Build. Ship. Then do it better.
