

**The Chief Executive Officer**

Crest Energy Pak Ltd

Quaid-e-Azam Solar Power Park near Bahawalpur, Punjab, Pakistan

**Subject: Follow up: NEPRA (Security of Information Technology and Operational Technology) Regulations, 2022 – Compliance Advisory & Support Services**

Dear Sir/Madam,

I'm following up on our earlier letter regarding NEPRA's Security of IT and OT Regulations, 2022. As specialists in NEPRA compliance, we'd welcome the opportunity to support Crest Energy Pak Ltd in meeting these requirements.

**I. WHY xLOOP DIGITAL**

---

- Deep power-sector track record — hands-on with regulatory compliance, cybersecurity assessments, IT/OT controls, and audit readiness for licensees like yours.
- Internationally certified engineers with dedicated OT/ICS and SCADA expertise across Pakistan's energy sector.
- NEPRA/ISMO-ready deliverables — clause-referenced, audit-ready, and built for Board review.
- Engagement on your terms: a one-time assessment, an annual compliance retainer, or full implementation support.
- Local presence, global reach — delivery teams in Pakistan, the USA, UAE, and Qatar.

We'd welcome a brief call to walk your team through a tailored compliance roadmap, starting with a complimentary gap assessment. Reach out at your convenience, or learn more at <https://www.xloopdigital.com/services/cyber-security-service>

We look forward to supporting Crest Energy Pak Ltd in strengthening cyber resilience and achieving full alignment with NEPRA's regulatory requirements.

Warm regards,

---

**Huzaifa Valika**
